

Job No. 042: LCMS Application Scientist

Newomics Inc., a venture-backed and NIH-funded commercial-stage biotechnology company in the San Francisco Bay Area, develops and commercializes enabling platforms and solutions for precision medicine. Newomics has unique infrastructure and resources to make major contributions to personalized healthcare. For more information, visit www.newomics.com.

Newomics has an immediate opening for a full-time LCMS Application Scientist position. The scientist will be responsible for developing new applications and providing technical support for Newomics products to customers. Current customers include a widerange of biopharma companies and research institutions. Outstanding candidates will be considered at the Manager level. Newomics will provide a comprehensive compensation package including salary, equity, and benefits such as PTO, medical/dental/vision and 401(k) plan. This position will work on site at our Berkeley office/lab.

Responsibilities

- Develop new applications for Newomics products and generate application notes
- Support marketing, sale, R&D, product development
- Troubleshoot hardware and software problems for LC-MS
- Help customers with LC-MS application issues
- Perform installation and training of Newomics products at customer sites
- Provide product demonstration to existing and potential customers
- Provide technical support to existing and potential customers
- Participate in the general lab and instrument maintenance
- Document all experimental records and file reports

Qualifications

- A MS or PhD degree in Analytical Chemistry, Bioengineering or a related field
- A minimum of 5+ years of industry experience or research institution
- Deep understanding and proven experience in liquid chromatography and mass spectrometry instrumentation
- Hands-on experience in developing LC-MS assays for biological samples
- Proven troubleshooting ability to diagnose and resolve problems of hardware and software on sophisticated instruments
- Demonstrated experience in developing strong customer relationships is a plus
- Excellent organization skills, attention to details, and ability to multi-task
- Requires 10%-25% travel
- Excellent oral and written communication skills
- You have a “do what it takes – no job is too small” team player and positive attitude with a willingness to wear other hats and step to perform and support other roles when needed.
- Ability to work in a fast-paced startup environment
- Eligibility to work in the United States
